DS-95i Folder Inserter

Flexible, Intuitive and Intelligent

Your Mail Center Assistant

A Flexible Folder Inserter to Automate Document Processing

With the need to identify more efficient and productive ways to conduct business, companies are always looking for ways to streamline the processing of their business critical communications. Ideally suited for businesses that need to automate a wide variety of document sizes and types, the DS-95i folder inserter handles them all with ease. DS-95i comes standard with barcode reading technology to automate variable-page jobs, incorporating another layer of security that ensures the right documents are always sent to the right person. Add Quadient's powerful Output Management or AIMS-500 software for even greater process optimization and integrity.

Automated Document Preparation

Quadient's optional Output Management Software (OMS) can add significant value by enhancing the formatting, personalization, grouping, printing, barcoding, and addressing of your documents.

OMS and AIMS, along with the folder inserter operating system, work seamlessly together to meet all your business' critical communications requirements.

Document Control and Security

Quadient's exclusive CIS scanning device reads OMR 1 track, OCR, 1D barcodes and 2D Data Matrix codes. With this technology, the inserter control codes can be printed nearly anywhere on the document, providing you greater document layout flexibility and control.

Visibility and Integrity

Businesses today face a multitude of regulatory issues and customer demands to guarantee the integrity of business communications.

The optional AIMS-500 software extends DS-95i's built-in document security to deliver complete end-to-end process verification. Its verification capability confirms every piece of mail in your job has been processed accurately, providing complete closed loop, piece-level integrity.

Business Impact

Revenue Growth

Maximize opportunities to better communicate with customers

Risk Mitigation

Ensure that every recipient receives the right mail piece

Customer Engagement

Create your own professional looking mail pieces

Expense Control

Maximize productivity thanks to speed and reliablility

DS-95i

1. High-Capacity Vertical Stacker Preserves printing order and holds up to 500 finished envelopes so operators spend less time uploading

Simple and Intuitive

The color touch screen and automatic job setup make DS-95i exceptionally easy to use. Simply load envelopes and documents and the DS-95i will adjust all settings automatically and even save them to the memory for instant recall.

Versatile and Efficient

The VersaFeeder is the ideal choice for running inserts, BRE's or even booklets up to 2.5 mm thick. This dedicated insert feeder holds up to 500 documents at a time and can be programmed to feed automatically or selectively feed on command.

3. Feeder Linking

Continuous operation is achieved by

another one automatically takes over,

allowing you to refill as needed until

linking feeders. If one feeder runs empty,

We've Got You Covered

Quadient maintains a network of offices across the country to provide local customer support and trained technicians

who are ready to assist you. You can be confident that when you need knowledgeable support or expert service, the point-of-contact will be a Quadient office in your area consisting of a team of local professionals.

About Quadient

Quadient is the driving force behind the world's most meaningful customer experiences. By focusing on four key solution areas including Customer Experience Management, Business Process Automation, Mail-related Solutions, and Parcel Locker Solutions, Quadient helps simplify the connection between people and what matters. Quadient supports hundreds of thousands of customers worldwide in their quest to create relevant, personalized connections and achieve customer experience excellence. Quadient is listed in compartment B of Euronext Paris (QDT) and belongs to the SBF 120 index.

For more information about Quadient, visit quadient.com.
